## Sydney Woodworkers specialise in stock doors + windows

We offer the largest range of stock red cedar joinery available in Australia. We're committed to giving our clients more choice and products that are built to last a lifetime. We're confident when you touch and feel the difference that distinguishes beautiful red cedar product from inferior materials your choice will be easy. Our stock range doesn't have the lead times or price tag associated with custom joinery but is handcrafted to the same meticulous standards. The rapid delivery times possible with standard sizes enables builders to achieve tight schedules without sacrificing quality. It also opens up a range of accessories for framing, security, hardware and screening to simplify installation. Our aim is always to exceed your expectations - not your budget. Whether your joinery folds, slides, swings, pivots or is fixed, we have the largest range of stock sizes that can be adapted to suit your requirements at prices that will pleasantly surprise! And if you can't make standard sizes fit, we custom make to any size or architectural style. Our staff are experienced to provide great solutions. Our aim is to do

we design

everything required in doors, windows, hardware, shutters, blinds + gates is on display in our comprehensive showrooms

we manufacture

we carry huge stocks or can custom make to any design with our unique onshore and offshore workshop capability

## REAL WOOD REAL GOOD

we stock

we coordinate

and we deliver

we frame and prehang to any size and design, preprime and lock mortice to make your onsite installation easy

we offer a huge range of locks + hardware, mouldings, finishes and furnishings to complete your installation

we warranty and certify our joinery as required to ensure your satisfaction + compliance with the Australian standards

The elegance of mediterranean doors is recreated evocatively in Sydney Woodworkers euro range. This popular collection infuses the rich detail of sinuous wrought iron, delicate bevelled glass and heavy timber collections to produce doors that capture the unique spirit of traditional european joinery.

Sydney Woodworkers heritage doors faithfully replicate designs pioneered by Woodworkers in 1928. The doors feature strong authentic mouldings and are available with triple glazed leadlight designs reproduced from period originals.

Our Hampshire range recreates regional designs from the Continent and seaboard USA characterized by greater use of glass for light and generous proportions to provide more welcoming entry options

2040 x 1200 x 45	\$2097	\$3416
2280 x 1200 x 45	\$2306	\$3659
double sided integrated stainless full height handle with glass or stainless backplate		

Note: 2280 high version has wider top and bottom rails so handle remains unchanged

Refer to our separate catalogue of handle designs for Australia's widest selection of designer hardware.

Pivot doors have become popular because they give a wide generous opening and a simple modern appearance. Sydney Woodworkers has a wide range of stock pivot size doors that are suitable for exposed situations and we can custom make any other size or style required.

enquire if other services are available with your joinery choice.

\* framed unit hung on hydraulic pivot closer

bushfire compliant only if lower viewer omitted.

For safety reasons when we prehang pivot doors we always control their action with a hydraulic closer.

Sydney Woodworkers also have oversize options in the heritage and the fuseon flush door range to suit any architectural application. We lead the trend to using wider and taller doors to make a generous first impression and have custom capability for larger designs when specified

# new to sydney woodworkers custom made pivot doors

## FRITSJURGENS® OVERVIEW SYSTEMS

The FritsJurgens® pivot door range consists of three systems.

System One is the most compact system: the hinge is non sprung providing free movement.

System 3 has three functions: rotation, closing and hold positions. System 3 can turn through 360° and is characterized by a hold position at every quarter of a circle including a self opening and self closing feature.

The System M adds a new dimension to the pivot door by creating the ultimate smoothness in: total control over the movement of the door making it ideal for 90° and 180° swing doors.

### SYSTEM ONE

### SYSTEM 3

### SYSTEM M

## SYSTEM 3 PERFECTION ALL AROUND

FritsJurgens® System 3 has an extensive arsenal of functions: rotation, closing and hold positions. System 3 can turn through 360° and is characterised by a hold position at every quarter of a circle.

Thanks to the patented bearing configuration of the System 3 pivot, relatively little force is required to get the door moving. The upper and bottom cam are working in the opposite direction. Therefore the force on the mid cam is nil. This creates a perfectly balanced system suitable for high-traffic use.

## custom handles

round pull handle

flat bar pull handle

half moon handle

half moon handle

### MOVEMENT

#### SYSTEM ONE

- Rotates 360°
- No hold open positions or self closure function

#### SYSTEM 3

- Rotates 360°
- Hold open at 0°, 90°, 180° and 270°
- Self-opening - The door automatically moves from each 45° angle in both directions to the next hold position
- Self-closing - The door comes to rest in the desired hold position after a two overswing movements

#### SYSTEM M

- Hold open at 0°, 90° and -90°
- Self-closing from -125° and 125° - After opening, the door returns smoothly to the 0° position unless pushed to the hold open position at 90° or -90°.
- Adjustable closing damping (soft close)
- Adjustable hydraulic backcheck

## SYSTEM M HIDDEN PERFECTION

A pivot door is a symbol of hidden perfection. System M adds a totally new dimension to the FritsJurgens® pivot hinge range by creating an unsurpassed experience: total control over the flow and movement of the door.

The opening is as light as a feather, the movement extremely elegant, and the closing as soft as a whisper, even for doors that weigh up to 300kg. All this thanks to our brilliantly engineered, patented dampeners that operate in seamless co-ordination.

System M is perfect for single action and double action pivot doors.

## DESIGN HAS NO BOUNDARIES

**Sydney woodworkers** have developed a unique pivot door. We can custom make an architectural styled door with clean lines, with a variety of different species of timber.

Selection of the timber is dependent on site conditions.

We can also use metal finishes ie powdercoated aluminium, stainless steel, copper to name a few.

Handles and push plates can also be incorporated into the door.

The door is produced using an aluminium subframe for strength, stability and lighter weight construction.

This is one of the methods that help create a great front door to last a life time.

Low E  
double glazing

WOODWORKERS DOUBLE GLAZED  
SINGLE LIGHT DOORS

Sydney Woodworkers double glazed doors offer an excellent combination of security, noise and solar control. The 16mm thick glass panels comprise two skins of toughened 5mm clear glass with a pyrolytic coating (LowE) to the inside. The units have desiccant spacers to prevent fogging in the argon gas filled center void. The panels reduce heat transfer by more than 50% and block infra-red and UV by more than 90%. They retain heat in winter; keep interiors cool in summer and provide brilliant noise

Sydney Woodworkers offers widest range of stock design options for entries and classic joinery but can also custom manufacture to any size or style.

# bushfire zones

Not all stock products are suitable for bushfire areas

If you are building in a bushfire prone area with a specified BAL (Bushfire Attack Level) higher than BAL-LOW, there are restrictions on the timber species that can be used for doors and windows according to the protection provided over the joinery. The following simplified table indicates acceptable timber solutions when installed as per AS3959 - 2009. For more detailed criteria please discuss with our sales staff or read our website FAQ 26.

Element	Protection installed	BAL 12.5	BAL 19	BAL 29	BAL 40 + FZ
Hinged + pivoting solid timber doors	Bushfire shutters	Surian Cedar	Surian Cedar	Surian Cedar	Surian Cedar
	Stealshield Kwila screens	Surian Cedar	Surian Cedar	Surian Cedar	Timber unacceptable
	No protection	Surian Cedar OK provided 35mm thick for 400mm above threshold. Frame Rosewood or Merbau	Surian Cedar OK provided 35mm thick for 400mm above threshold. Frame Rosewood or Merbau	Surian Cedar OK provided 35mm thick for 400mm above threshold. Frame Merbau	Metal door screen required
Hinged + pivoting glazed doors	Bushfire shutters	Surian cedar sash Glass to AS1288	Surian cedar sash Glass to AS1288	Surian cedar sash Glass to AS1288	Surian cedar sash Glass to AS1288
	Stealshield Kwila screens	Surian cedar sash Glass to AS1288	Surian cedar sash Glass to AS1288	Surian cedar sash Glass to AS1288	Timber unacceptable
	No protection	Rosewood sash Glass toughened 4mm or laminated Frame Rosewood or Merbau	Rosewood sash Glass toughened 5mm Frame Rosewood or Merbau	Merbau sash 6mm toughened glass. Screened below 400mm Frame Merbau	Timber unacceptable
Sliding doors + Garage doors	Bushfire shutters	Surian Cedar Glass to AS1288	Surian Cedar Glass to AS1288	Surian Cedar Glass to AS1288	Surian Cedar Glass to AS1288
	Stealshield Kwila screens	Surian Cedar Glass to AS1288	Surian Cedar Glass to AS1288	Surian Cedar Glass to AS1288	Timber unacceptable
	No protection	N.G.Rosewood or Merbau sash Glass toughened 4mm or laminated. Frame Rosewood or Merbau	N.G.Rosewood or Merbau sash Glass toughened 5mm. Frame Rosewood or Merbau	Merbau only allowed. Glass toughened 6mm Frame Merbau	Timber unacceptable
Window frames + surrounds	Bushfire shutters	Surian Cedar	Surian Cedar	Surian Cedar	Surian Cedar
	Stealshield screens	Surian Cedar	Surian Cedar	Merbau	Timber unacceptable
	No protection	Rosewood/Merbau for 400mm above > 110mm horizontal projection. Surian OK above 400mm	Rosewood/Merbau for 400mm above > 110mm horizontal projection. Surian OK above 400mm	Merbau	Timber unacceptable

Timber bushfire shutters compliant with AS3959 must be non removable hinged solid merbau panels completely covering the wall opening which can have up to 20% perforations. Proprietary metal bushfire shutters are also available.

Bottom roller bifolds are slightly more expensive than top roller systems but are ideal where the lintel over an opening is inadequate to carry the additional weight. They are particularly suitable for extra wide applications or glass wall designs requiring minimal exposed structure.

enquire if other services are available with your joinery choice.

- more locking kits see page 39
- lock morticing to suit

incl. installation

- For logistics it is recommended multi-fold systems over 3600mm in width are disassembled and flat packed. A BSA registered sub-contractor can be arranged for the purchaser by Woodworkers, if required, to re-assemble and fix at an additional cost.
- Final adjustments may be necessary by installer after frame is installed. A service fee will apply if Woodworkers is required to provide onsite adjustment.
- Delivery is not included, but can be arranged using a one driver courier. The purchaser must allow for four or more strong people to off load at the destination.

\* Only single light available in 920mm and 1020mm

FACTORY WHITE PREPRIMING NOT AVAILABLE DOUBLE GLAZED AND STEALTHSHIELDS DOORS

Maximum insect screen width is 4500mm. When wider than this size, the frame has to have 2 screens opening right & left. Unsuitable for larger all one way multifolds

Overheight bifolds include 190mm top flush bolts. Extended drop bolts (500mm) extra \$58 each

- As multi-fold hardware systems evolve, joinery sizes may vary slightly. Verify extremities of frame before framing up.
- Flush bolts (half keyed), clear glass, seals, premium running gear included.
- Prices subject to stock availability and cost change during the currency of this flyer.
- Multi-fold door systems are warranted to open out only. They can be made to special order to open in but will not be watertight.
- Height is measured from underside of sill to top of frame.
- Hybrid sill available POA.

NOTE:  
Bottom roller hardware is  
available only in satin silver  
finish

NOTE:  
Insect screens are Black BRIO  
pleated screens rated to 28km/hr.  
Frame depth 190mm required for  
integrated screens. Disassembly  
for transport not permitted.

Woodworkers overhead track bifolds are supplied framed and hung on premium stainless steel or gold hardware complete with all flush drop bolts and weather seals. Integral insect screens can be factory installed and in locations where privacy and sun control is also essential, our unique vista doors with double glazed venetian blind inserts provide the ultimate solution.

# sydney woodworkers hinge off hinge folding doors

## HINGE OFF HINGE CONCERTINA ACTION DOORS

Each hinged pair has 1 hinge handle, and 1 roller under the door hung from the jamb. All necessary flush bolts and flush pulls supplied + housed

Ten light Concertina Doors illustrated.

standard frame 140 x 32mm

Hinge off hinge are the solution if you've got a small opening to 3m wide and need your doors to stack flat rather than at 90°

We use stainless steel spring loaded rollers mortised into the underside of each door hung from the jamb to provide support & stability.

roller details

With concertina action the centre door opens inwards on the outer door and the pair swing 180° to park against the side wall.

JAMB WIDTH: STANDARD 140mm, INSECT SCREEN 190mm

**IMPORTANT INFORMATION**

Hinge off hinge systems are not technically equivalent to overhead track bifold systems. They are prone to sag over time and are more susceptible to problems from movement in the surrounding floors or walls. Purchasers are cautioned that the bottom roller system minimises rather than eliminates sag.

Stock French doors only available with clear glass. Other glass options can be custom made at additional cost.

## HINGE OFF HINGE FOLDING ACTION DOORS

insect screen prices on this page allow for retractable pleated screens.

1 roller fitted under the door hung from the jamb. All necessary flush bolts and flush pulls supplied + housed

standard frame 140 x 32mm

We use stainless steel spring loaded rollers mortised into the underside of each door hung from the jamb to provide support & stability.

roller details

JAMB WIDTH: STANDARD 140mm, INSECT SCREEN 190mm

Folding Action bifolds offer the flexibility of having the centre pair of doors open out independently as French doors for day to day use without having to resort to the full bifold action. They are weathertight and stow neatly in the open position against the side walls but require flush hardware fittings & larger more obtrusive jamb hinges more prone to sag over time.

Sydney Woodworkers hinge off hinge folding doors can be an ideal solution for smaller openings to restrictive patios and throughfares where the ability to stow the doors flat against the external wall is an advantage. Our unique integral spring loaded bottom roller supports reduce susceptibility to sag and improve stability.

lock and flush bolt morticing is available for woodworkers hardware.

sydney woodworkers stock combination range

Sydney Woodworkers has the widest range of stock combination options providing a solution for almost any application. Our units may be able to be upgraded to meet bushfire code requirements to BAL29 at additional cost and where necessary by the installation of external compliant screen doors. Refer page 16 and our website FAQ 26 regarding bushfire solutions. Sydney Woodworkers stealshields can be added to most stock combinations where increased protection is required against intruders and insects.

# sydney woodworkers sliding doors

DESIGN PERFORMANCE  
Structural 1000 Pa  
Water Resistance 150 Pa

## STOCK SLIDING DOORS

Unless requested otherwise, sliding sashes will be positioned to the inside of the fixed sashes. This configuration works better for hardware but should not be opened when wet as it does not permit easy water escape. Stock sliders are made for semi protected suburban conditions. If sliders are to be used in very exposed or cyclonic rated positions they can be weatherseal upgraded at an additional cost of 7.5%.

sliding doors can be made from any style french or provincial door in our range or custom built to your exact sizes at additional cost

If using Brioscreen to sliding doors, positioning is behind fixed door and door sashes fitted to front of fixed door allows for better sealing in more exposed conditions at additional cost.

Insect screens supplied are BRIO black pleated screens rated to 28 km/hr

FACTORY WHITE PREPRIMING NOT AVAILABLE FOR DOUBLE GLAZED AND STEALSHIELDS DOORS

### STOCK DOOR DESIGNS FOR SLIDING UNITS

X - sliding O - Fixed

SLIDERS: USING STOCK DOORS Allows for cedar frame, 140mm jamb, brass track, pre-hung, bead fixed clear glass.

recommended hardware - Sliding door OX kit (see pg 38 - 39 for more details)

Sydney Woodworkers offers more design choices in sliding door units than any other manufacturer, incorporating both overwidth and overheight options for maximum flexibility. Our doors roll on adjustable stainless steel bottom rollers and brass track and can be made intruder and bushfire resistant with stealshield outer panels that provide cost effective security.

lock and flush bolt morticing is available for woodworkers hardware.

## chancellor carriage gates

1300 x 1400 x 45 \$1257 each

Heavy galvanised wrought iron panels powdercoated black in solid cedar frame

NEW PRODUCT

for additional stock gate designs refer FAQ 18 on our website

## chancellor carriage gate (large)

1300 x 1600 x 45 \$1321

## chancellor pedestrian gate

1800 x 900 x 45 \$1105

NEW PRODUCTS

All designs are available with kwila frames and cedar infills, white primed, at an additional cost of 20%.

GATES ARE CONSTRUCTED OF SURIAN RED CEDAR. PRE-PRIMING WHITE / CLEAR SEALER EXTRA 20%. SUBJECT TO AVAILABILITY

Standard lattice sizes 30 x 10 and 20 x 10 available in red cedar. All other lattice sizes supplied in treated pine for painted applications. External gates must have minimum 4 coats oil based paint to maintain their warranty. Water based acrylic paints are unacceptable.

Never use acrylic paints on gates

Sydney Woodworkers unique range of stock mortice and tenon gates permit most driveway and pedestrian requirements to be supplied without long lead times for both heritage and contemporary applications. Many of the designs are stocked as templates so that lattice and slats can match the prevailing architectural details of your house. Sydney Woodworkers can also custom make gates to any other design as required.

# Sydney Woodworkers are the stock window specialists

Sydney Woodworkers stock Australia's largest selection of red cedar window sizes and styles. All our windows are made to proven joinery details incorporating Category 1 durability sills, non-corroding mechanisms and are glazed clear or with your choice of glass. All windows are available raw but most sizes can be supplied preprimed white or clear oil presealed. We also have hardware kit options that make the selection of keyed alike locks and handles simple. Standard windows are rated to N2 wind loads but can be upgraded with seals for more exposed conditions at a small additional cost. Double hung windows can be converted with weather seals and /or energy efficient glass - POA. Internal lining grooves can be added to enable wider frame depth POA

## STEALSHIELD DOUBLEHUNG WINDOW SCREENS

Sydney Woodworkers exclusively stock a range of powdercoated stainless steel mesh screens to provide affordable insect, security + bushfire protection. Available in both timbergrain and white trim, Stealshield screens are designed to deter external intruders but are quickly openable from inside to permit cleaning, painting and emergency fire escape.

NOTES

- All stock louvre windows are supplied in Surian red cedar frame with durable 40mm hardwood sill.
- Stock galleries are only available in black, white or silver grey.
- Standard obscure glass is NFP Frost. Grey glass extra \$4 per 152mm blade & \$3 per 102mm blade.
- For non-standard heights requiring a cut down louvre blade or packers add \$84 per louvre bay.
- All louvre galleries are set to inside of frame with handles on left.
- If security is a problem key locking available \$23 per handle. Max 6 blades per handle 152mm blades Max 7 blades per handle 102mm blades

Sydney Woodworkers have the largest range of stock surian cedar casement designs and sizes, many of which are available pre-primed in white or clear oil primer. Our casements are factory hung to your specifications on premium stainless steel friction stays to glide smoothly and we use traditional heavy section hardwood sills to last a lifetime. Prices are for clear glazed sashes but we can also glaze to your specifications at additional cost.

## sydney woodworkers sliding windows

DESIGN PERFORMANCE  
Structural 1000 Pa  
Water Resistance 150 Pa

Unless requested otherwise, sliding sashes will be positioned to the inside of the fixed sashes. This configuration works better for hardware but should not be opened when wet as it does not permit easy water escape. Stock sliders are made for semi protected suburban conditions. If sliders are to be used in very exposed or cyclonic rated positions they can be weatherseal upgraded at an additional cost of 7.5%.

### STOCK SASHES

we custom make to any size of course, but if you use our stock sizes you'll save time + money

The fixed insect screens in this pricelist are powdercoated aluminium toggle fixed to the fixed sashes covering the openable space only.

Sydney Woodworkers have the widest stock range of sliding and multifold window options and we can also custom make to any other size. Prices shown are for clear glazed raw units without locking hardware fitted. See page 37 for a selection of locking hardware.

# sydney woodworkers multifold windows

sydney woodworkers trackless bifold windows

## HINGE OFF HINGE FOLDING WINDOWS

PRE-PRIMED WINDOWS SUBJECT TO AVAILABILITY. PRE-PRIMING WHITE OR CLEAR OIL 10% EXTRA

### CONCERTINA WINDOW OPTIONS

#### TWO SASH BIFOLD

Frame Width	Standard Sill	Servery Sill	No Sill
586 x 1136 mm	\$1234	\$1503	\$1141
986 x 917 mm	\$1323	\$1610	\$1249
986 x 1217 mm	\$1440	\$1702	\$1340
1186 x 917 mm	\$1423	\$1709	\$1348
1186 x 1217 mm	\$1526	\$1788	\$1426

DESIGN PERFORMANCE  
Structural 1000 Pa  
Water Resistance 150 Pa  
not weathertight with servery sill

With concertina action the centre window opens inwards on the outer window and the pair swing 180° to park against the side wall.

#### THREE SASH BIFOLD

Frame Width	Standard Sill	Servery Sill	No Sill
586 x 1659 mm	\$1691	\$1916	\$1555
986 x 1329 mm	\$1767	\$2020	\$1658
986 x 1779 mm	\$1943	\$2157	\$1795
1186 x 1329 mm	\$1920	\$2173	\$1811
1186 x 1779 mm	\$2081	\$2297	\$1935

Concertina folding windows are less prone to sag than their folding action counterparts as the jamb hinges are smaller & stronger. Hinge off hinge windows are suitable when it is imperative that the windows stack flat against the adjacent walls rather than at 90°

#### FOUR SASH BIFOLD

Frame Width	Standard Sill	Servery Sill	No Sill
586 x 2194 mm	\$2525	\$2706	\$2344
986 x 1754 mm	\$2621	\$2839	\$2477
986 x 2354 mm	\$2872	\$3040	\$2679
1186 x 1754 mm	\$2753	\$2971	\$2609
1186 x 2354 mm	\$2989	\$3157	\$2795

Heavy duty stainless steel hinges used. Each hinged pair has one hinge handle. Locking hardware and flush pulls included in price.

If no sill required deduct 40mm from all heights

### FOLDING WINDOW OPTIONS

#### TWO SASH BIFOLD

Frame Width	Standard Sill	Servery Sill	No Sill
586 x 1124 mm	\$1486	\$1756	\$1394
986 x 904 mm	\$1572	\$1860	\$1498
986 x 1204 mm	\$1706	\$1969	\$1607
1186 x 904 mm	\$1670	\$1958	\$1596
1186 x 1204 mm	\$1795	\$2058	\$1696

With folding action the centre window opens out over the outer window and the pair then swing 180° to park against the side wall.

#### THREE SASH BIFOLD

Frame Width	Standard Sill	Servery Sill	No Sill
586 x 1646 mm	\$1995	\$2222	\$1860
986 x 1316 mm	\$2079	\$2333	\$1971
986 x 1766 mm	\$2278	\$2495	\$2133
1186 x 1316 mm	\$2223	\$2477	\$2115
1186 x 1766 mm	\$2415	\$2630	\$2269

Folding Action bifolds offer the flexibility of having the centre pair of windows open out independently for day to day use without having to operate the full bifold action. However they require flush hardware fittings and their larger obtrusive jamb hinges are more prone to sag.

#### FOUR SASH BIFOLD

Frame Width	Standard Sill	Servery Sill	No Sill
586 x 2168 mm	\$2773	\$2957	\$2596
986 x 1728 mm	\$2850	\$3070	\$2708
986 x 2328 mm	\$3165	\$3335	\$2973
1186 x 1728 mm	\$3045	\$3265	\$2903
1186 x 2328 mm	\$3300	\$3471	\$3109

Heavy duty stainless steel hinges used. Locking hardware and flush pulls included in price.

PERCENTAGES BELOW ARE ADDED FOR DIFFERENT STOCK SASHES.

NOTE: EVERY DESIGN IS NOT AVAILABLE IN EVERY SIZE.  
+ 2% + 2% + 5% + 3% + 5% + 13%

#### IMPORTANT NOTE:

Trackless bifolds rely on one window being hinged off its partner and therefore their performance relies on the strength of the hinges used. The system is less adjustable than the superior overhead track option and is only suitable for small openings.

## PREMIUM OVERHEAD TRACK MULTI-FOLD WINDOWS

### TWO SASH MULTIFOLD - LEFT OR RIGHT

gold or silver hardware available for all multifolds at same cost.

2 x 120mm flush bolts fitted (300mm extended bolts extra \$58ea).

Frame Width	Single Light			retractable
	Sill	Servery	No Sill	insect screens
1040 x 921	\$1802	\$1960	\$1709	\$700
1040 x 1221	\$1901	\$2083	\$1785	\$756
1240 x 921	\$1846	\$2004	\$1753	\$674
1240 x 1017	\$1885	\$2049	\$1785	\$674
1240 x 1221	\$1944	\$2126	\$1827	\$792
1240 x 1557	\$2338	\$2548	\$2193	\$933
1240 x 1857	\$2453	\$2686	\$2285	\$990

### FOUR SASH MULTIFOLD - 2 LEFT - 2 RIGHT

6 x 120mm flush bolts fitted (300mm extended bolts extra \$58ea).

Frame Width	Single Light			retractable
	Sill	Servery	No Sill	insect screens
1040 x 1771	\$3422	\$3647	\$3259	\$901
1040 x 2371	\$3621	\$3895	\$3411	\$1013
1240 x 1771	\$3486	\$3711	\$3324	\$933
1240 x 1963	\$3562	\$3803	\$3385	\$990
1240 x 2371	\$3680	\$3953	\$3469	\$1046
1240 x 3043	\$4365	\$4692	\$4099	\$1942
1240 x 3643	\$4596	\$4970	\$4280	\$2028

#### DO MULTIFOLD WINDOWS HAVE A SILL?

The multifold window system does not use a bottom track except for sizes shaded in orange. Standard multifold windows come with a hardwood sill. If no sill is required subtract 38mm from the height.

#### CAN I HAVE A SERVERY SILL?

A 360mm wide x 38mm thick Surian cedar servery can be installed where the window is not exposed to weather and not in a bushfire zone. Serveries finish flush with the inside edge of the jamb leaving a 220mm unsupported exterior protrusion. Where no sill or a servery sill is provided a brush seal will be fitted to the underside of the window sashes.

- Sizes shown shaded orange are only available in Single light
- Bottom guide & track must be used on sizes shown shaded orange
- No sill option for frames that require bottom guide will be supplied on a temporary sill to allow for correct positioning & alignment. This must be removed prior to installation
- Insect screens are not available for widths wider than 2371mm

### THREE SASH MULTIFOLD - ALL LEFT OR ALL RIGHT

2 x 120mm flush bolts fitted (300mm extended bolts extra \$58ea).

Frame Width	Single Light			retractable
	Sill	Servery	No Sill	insect screens
1040 x 1346	\$2284	\$2476	\$2157	\$866
1040 x 1796	\$2432	\$2660	\$2268	\$933
1240 x 1346	\$2338	\$2529	\$2211	\$866
1240 x 1490	\$2396	\$2599	\$2257	\$866
1240 x 1796	\$2483	\$2710	\$2320	\$933
1240 x 2300	\$2966	\$3234	\$2761	\$1046
1240 x 2750	\$3141	\$3444	\$2899	\$1852

### FOUR SASH MULTIFOLD - ALL LEFT OR ALL RIGHT

4 x 120mm flush bolts fitted (300mm extended bolts extra \$58ea).

Frame Width	Single Light			retractable
	Sill	Servery	No Sill	insect screens
1040 x 1771	\$3198	\$3423	\$3036	\$901
1040 x 2371	\$3397	\$3670	\$3186	\$1013
1240 x 1771	\$3262	\$3486	\$3099	\$933
1240 x 1963	\$3340	\$3581	\$3161	\$990
1240 x 2371	\$3456	\$3729	\$3245	\$1046
1240 x 3043	\$4220	\$4546	\$3953	\$1942
1240 x 3643	\$4452	\$4826	\$4136	\$2028

#### STOCK DESIGNS AVAILABLE FOR MULTIFOLD WINDOW SYSTEMS

4 Light, 6 Light, 8 Light, Hopscotch & Coathanger sashes can be used (some with size limitations). Cost surcharge is approximately as indicated below. Refer website for accurate costings.

Sydney Woodworkers are the leading supplier of stock overhead tracked multifold windows because we offer more options, premium stainless hardware and super competitive prices.

door lock preparation and installation video

## LOCK POCKET + FLUSHBOLT MORTISING

When Woodworkers hardware is ordered these discounted prices apply to mortising as a package

**SINGLE DOOR LOCK ONLY - \$90**

**DOUBLE DOOR LOCK ONLY - \$110**

**FLUSHBOLT + LOCK ROUT - \$150**

No further discount applies

## MORTICE LOCKS:

Flush bolt routing is for Woodworkers own keyed or non keyed flush bolts only and does NOT include striker plate checkout and the installation of the flush bolts which is done on site by others

Sydney Woodworkers provide a service to machine out lock pockets and flush bolt routings to suit our hardware only. Price does not include installation of the hardware but does cover the trenching for the lock body and plate as shown but NOT for the striker plate, cylinder or spindle holes which need to be done on site by others. This permits flexibility for both single and double sided hardware to be fitted on site to suit the application.

sectional garage doors

tilting garage doors

auto swing gates

auto slide gates

## PITTWATER

This is one of the most popular garage doors in the range. It has a simple, timeless look which enhances and complements contemporary architectural styles.

## NEWPORT

Choose from 3 different sized stainless steel inserts and match to your entry door.

## METALLIC STRIP

This eye catching contemporary door provides security and style. Coordinate this style with your entry door, driveway gates or passage gate to harmonize your architectural presentation.

## COOLUM PLY

This style blends with modern, classic or even tropical designs and can be individualised with different glazing and metal finishes and accented with metal studs to achieve eye catching look.

## HERITAGE

We design heritage style garage doors to complement Victorian, Georgian and other architectural aesthetics. These may be constructed as sectional garage doors, tiltadoors or conventional joinery as required.

## FUSEON

Variations using metal composite panels provide design freedom in garage doors using solid colour, copper or aluminium accents or a matrix of panels with timber to give the door a unique architectural appearance.

## AIR VENTED SLAT DOORS

Individually designed to meet your architectural style, boards can run horizontally or vertically to create eye-catching patterns.

Sydney Woodworkers has a unique ability to match your requirements for windows, doors, garage doors and gates. We produce using a variety of interesting materials including surian red cedar for its beauty, durability and prestige or N.G. rosewood to comply with bushfire code requirements. Our aim is to make your home stand out amongst more mediocre garage doors. Whether you are building a new home or renovating, these products are a great place to start to make that difference

Sydney Woodworkers heritage leadlights faithfully match originals from early last century. All leadlights are handmade using traditional techniques and are encased with toughened safety glass. The bevelled series are meticulously hand polished to diffract light and add sparkle to any entry. Our unique wrought iron options are hand forged, zinc plated and powder coated for durability.

Sydney Woodworkers has been making Victorian fretworks and turnery for heritage homes since 1928 - long before they were classified as restoration products. As die hard traditionalists, we endeavour to make most of our restoration range using traditional methods and designs. We use durable kwila and cedar for most external products (not pine) but have embraced laser cutting for complicated fretworks for accuracy and cost. We custom make to any size and design.

Sydney Woodworkers has been handmaking spare parts for old houses and all styles of finishing joinery since 1928. Many of the details we now replicate were originally built in our workshops. We know our details are authentic and we try to ensure our prices are a little old fashioned as well. Woodworkers restoration products offer more choice, better prices and original designs.

Decorative verandah brackets were traditionally used to embellish house facades usually fixed to verandah posts on top of a crown and collar mould capitol. Woodworkers company offers a wide range of brackets made from durable red cedar and uniquely pre-primed and sands them to minimise onsite painting costs.

# sydney woodworkers custom joinery + xs stock

## Local manufacture of custom joinery

The Woodworkers group has been manufacturing custom joinery since 1928 and employs more than a hundred staff in its Australian workshops. We have the experience and skills to tackle projects large and small. We pride ourselves on being flexible and innovative. We have the advantages of a boutique joinery but the resources of a larger group, both onshore and offshore, to draw on when necessary. We uniquely can customise all your requirements for doors and windows and follow through to gates and garage doors to coordinate the complete design. We also provide all the hardware and automation necessary and shutters or blinds to complete the picture. We can adapt and trim stock and custom joinery, frame and hang it and machine pockets out for locks and bolts. We specialise in challenging architectural details like corner sliding units, oversized pivots and face of wall stacker units. Our sales staff have the experience to advise on designs and costings. For generations we've built joinery that lasts a lifetime.

At Woodworkers, we do REAL WOOD, REAL GOOD

Moorooka factory photographed in 1932  
Woodworkers has been continuously making custom joinery since 1928  
and its original factory is still operating

## Save money by manufacturing offshore

Woodworkers operates four manufacturing plants in Australia and directly manages two factories offshore. While most of this infrastructure is to supply Woodworkers' own needs, there is capacity to undertake certain types of custom manufacture offshore. Depending on the complexity of the work, savings of 20% to 30% can be achieved from Australian custom made pricing. However joinery is also usually professionally primed or sealed within this discounted pricing thereby further reducing site finishing costs. Woodworkers makes custom joinery offshore identical to the product manufactured by its Australian parent and the product is made by expatriate trained staff to Australian specifications. The product is fully warranted by Woodworkers the same as locally manufactured product. The offshore manufacture option requires

- An order in excess of AUD\$10,000
- Lead time up to 12 weeks
- Design restrictions within the capability of the factory
- Size restrictions to permit containerisation of the product
- Fabrication in surian red cedar
